

# Standard and premium decorator colors for Slant/Fin commercial radiation

Slant/Fin powder coatings provide an attractive and durable finish to our extensive line of superbly crafted fin-tube enclosures. These architecturally decorative colors are resistant to abrasion, impact, corrosion, chipping and many common chemicals.

Color reproductions shown here are matched to actual colors as closely as possible. Slight variations may occur. Color chips are available upon request.

*\*Mineral Bronze swatch indicates color only. Sample of metallic finish is available on request.*
