

RATINGS CHART - GAS BOILERS

LYNX

Modulating, Condensing - High Efficiency

SPECIFICATIONS:		LX-85A Boiler
Fuel Rate Input:		85,000 BTUH max 25,000 BTUH min
Boiler Water Volume:		.75 gallon (6.25 lbs)
Water Piping Connections:		1" NPT (male)
Gas Piping Connection:		1/2" NPT (female)
Gas orifice size:		Natural Gas - No orifice used*
		Propane - .2025" inside diameter **
Weight of Boiler (uncrated)		78 lbs.
Vent Connection:		3" nominal I.D. pipe (PVC, CPVC or stainless steel)
Air Intake Connection:		3" nominal I.D. pipe (PVC, CPVC or stainless steel)
<p>*Note: No orifice changes are required for high altitude installations. **See page 43 for conversion procedure to propane.</p>
